

Section 6d: Contact email

contact@perma.earth – This is the main email address to be used for newsletters and requests unless the circle / project / working group / micro-enterprise have their own email

Access to this email is provided to those groups who need it. The communications team manages this email account you can message them using the @comms-engagement usergroup tag on slack.

The only request is that emails are kept in an orderly way and filed away when dealt with to avoid duplication of work or accidental deletion of mail for others.

Revision #1
